Please explain the problem/situation that the client needs assistance with, including if the volunteer is expected to stay with the client or just drop them off

Client will be picked up from his home for a prosthetics appointment at Baker Orthotics and Prosthetics. He is a double amputee (legs), currently using old prosthetics that require him to also use crutches. Volunteer will not need to wait at the clinic for the duration of the appointment, but if they could wait with the client until he is checked in to ensure there are no issues, that would be ideal. The appointment will last till at least mid-day, so I will be able to pick him up after the appointment is completed. Please let me know if there are any questions.
