Metro Atlanta Urban Farm (MAUF) Announces 2024 Earth Day Celebrations

College Park, GA—Metro Atlanta Urban Farm (MAUF) in College Park, GA has announced that it will offer three full days of exciting Earth Day 2024 Celebrations at 3271 Main Street in College Park.

The first event will be held Saturday, 20 April 2024, from 9:00 AM until 3:00 PM. Metro Atlanta Urban Farm (MAUF) and AARP have partnered to make this one of the most exciting Earth Day Celebrations ever. Several organizations have signed up to volunteer. Local schools, families, performing artists, and community stakeholders are all invited to spend a day at the farm learning how to care for Mother Earth.

The second event will take place Monday, 22 April 2024, beginning at 6:00 AM and will run until 2:00 PM. Metro Atlanta Urban Farm (MAUF) has partnered with V-103 and three of its sister radio stations who will broadcast live from the farm from 6:00 AM until 2:00 PM. Candidates running for election or re-election, local or statewide, are invited to stop by to introduce themselves to the community and share their plans to improve the quality of life for everyone in our state or local communities. The public is invited.

We are expecting an unprecedented number of volunteers and community stakeholders to come out and celebrate Earth Day on the Farm.

Each day of celebrations will offer farm tours, gardening lessons, children's activities, talent displays, and opportunities to serve the community.

About Metro Atlanta Urban Farm (A 501(c)3 certified naturally grown organization dedicated to providing access to fresh and nutritious food grown without synthetic chemicals, pesticides, herbicides, or insecticides.)
