**9:00am-11:00am**

**New Orleans City Park  
Administration Building**

**1 Palm Drive**

**New Orleans, LA 70124**

Nature's Notebook is a national phenology program in which professional and citizen scientists record long-term observations of plant and animal life stages.

New Orleans City Park is looking for a team of volunteers to make regular observations on the Couturie Forest phenology trail!

This training session will review the basics of Phenology, teach participants how to use the Nature's Notebook app and field data sheets, review best practices for making observations and get participants out on the trail!
